CONTENTS

Part 1	Introducing JavaScript	1
Chapter 1	What JavaScript Is All About	3
	The Birth of JavaScript	4
	Why JavaScript Is So Important (and Why Should I Care?)	5
	Uses for JavaScript	5
	Using JavaScript in an HTML Document	8
	Trying the Script Yourself	10
	The Role of the <SCRIPT> Tag	10
	A Realistic Use of JavaScript	13
	Viewing JavaScript "Objectively"	14
	A Method to Its Madness	17
	Statements Tie It All Together	17
	JavaScript FAQ	17
Chapter 2	Stuff You Should Know: Basic Programming	23
	Thinking Like a Nerd...,er...,Programmer	24
	The Object Is the Game	24
	Going with the Flow	25
	The Benefit of Routines	27
	Variables	28
	Expressions	30
	Strings	31
	Numeric Values	32
	Conditional Statements	33
	Looping	34
	Entering Data	35
	Outputting Data	36
	Other JavaScript Topics of Interest	38
	JavaScript FAQ	38
Chapter 3	Overview of JavaScript Programming	41
	An Overview of JavaScript Objects	42
	An Overview of JavaScript Properties	45
	An Overview of JavaScript Methods and Functions	50
	An Overview of JavaScript Statements	56
	An Overview of JavaScript Event Handlers	57

Authoring Programs In JavaScript	58
Programming Considerations	61
JavaScript FAQ	68

Part 2

Chapter 4

Core JavaScript	73
------------------------------	-----------

Objects	75
----------------------	-----------

Anchor Object	76
Anchors[] Array	76
Button Object	77
Checkbox Object	78
Date Object	79
Document Object	81
Elements[] Array	83
Frame Object	83
Frames[] Array	85
Form Object	86
Forms[] Array	87
Hidden Object	88
History Object	89
Link Object	90
links[] array	91
Location Object	92
Math Object	93
Navigator Object	95
Options[] Array	95
Password Object	97
Radio Object	98
Reset Object	99
Select Object	100
String Object	101
Submit Object	102
Text Object	103
Textarea Object	104
Window Object	106

Chapter 5

Properties	109
Browser Properties	110
Document Information and Appearance Properties	111
Form and Form Control Properties	113
Link Properties	118
Math Properties	120
String Properties	121
Window URL Properties	122
Window and Frame Properties	124

Chapter 6**Methods and Functions**

Date Methods	127
Document Methods	128
Form Methods	133
History Methods	138
JavaScript Functions	144
Math Methods	147
String Methods	154
User Interface Methods	157
Window Methods	172

Chapter 7**Expressions**

Creating Expressions	183
Assignment Operators	184
Math Operators	184
Relational Operators	187
The ! (NOT) Operator	188
Using the ? Conditional Expression Statement	193
The Bitwise Operators	194
Operators and Strings	195
Multiple Operators	200

Chapter 8**Statements**

// (Comment)	205
break	206
continue	207
for	208
for...in	209
function	210
if...else	212
new	213
return	215
this	216
var	218
while	219
with	221

Chapter 9**Variables**

Understanding Variables	225
Variable Naming Conventions	225
Understanding JavaScript's "Loose" Variable Data Types	230
Using the var Statement to Assign a Variable	231
The Rules and Regulations of Assigning Variables	231
String Length Limitations and Combining String Variables	232
Number or String in a Variable: When Does It Make a Difference?	233
Understanding the Scope of Variables	233
