Preface xxiii

PART ONE: THE BASIC ACCOUNTING PROCESS 1

1. An introduction to accounting 3
   Introduction 4
   Accounting — the language of business 5
   What is accounting? 5
   Users of accounting information 7
   Recording and communicating accounting information 8
   Accounting as a profession 9
      Public accounting 9
      Commercial accounting 10
      Government accounting 11
   The development of accounting standards 12
      The Australian Accounting Research Foundation 13
      The Accounting Standards Review Board 13
      The Australian Securities Commission 13
      The Australian Stock Exchange 14
      International influences 14
   Forms of business organisation 14
   Ethics and accounting 15
      Morals and ethics 16
      Ethics and professional accounting bodies 16
      Ethics in business 16
   Financial statements 17
      The balance sheet 17
      The profit and loss statement 20
      The statement of owner’s equity 21
   Some underlying assumptions of accounting 22
      The accounting entity assumption 22
      The cost assumption 23
      The going concern assumption 24
      The period assumption 24
      The objectivity assumption 24
   The effect of transactions on the accounting equation 24
   Recording of transaction data 30
   Glossary 31
## 2. Recording business transactions

- Introduction
- Transactions
  - Types of transactions
  - Transactions of a business entity
- The accounting cycle
- Source documents
- Recording business transactions — the use of accounts
  - Standard account formats
  - Accounts commonly used
  - Balance sheet accounts
  - Profit and loss statement accounts
- General ledger
- Chart of accounts
- Double-entry accounting
  - Debit and credit rules
  - Normal account balances
- General journal
  - Recording transactions in a journal
  - Posting from journal to ledger
- Illustrative problem
- Trial balance
  - Correcting errors
- Use of dollar signs and decimal points
- Demonstration problem
- Glossary
- Discussion questions
- Exercises
- Problems
- Additional problems
- Case for chapter 1

## 3. Adjusting the accounts and preparing financial statements

- Introduction
- Measurement of net profit
  - Cash basis
  - Accrual basis
- Adjusting entries
  - The need for adjusting entries
  - Classification of adjusting entries
- Prepaid expenses

Discussion questions 33
Exercises 35
Problems 38
Additional problems 42
Case for chapter 1 46
Unearned revenue 114
Accrued or unrecorded expenses 116
Accrued or unrecorded revenue 119
Adjusted trail balance 121
Preparation of financial statements 122
  Profit and loss statement 122
  Balance sheet 125
Demonstration problem 129
Glossary 132
Discussion questions 134
Exercises 135
Problems 140
Additional problems 147
Case for chapter 3 155

4. Preparation of a worksheet and completion of the accounting cycle 157
  Introduction 158
  Completion of the accounting cycle 158
  The worksheet 160
    Preparation of the worksheet 160
  Using the worksheet to complete the accounting cycle 166
    Preparation of financial statements 166
    Recording adjusting entries 167
    Closing the accounts 169
    Account balances after the closing process 179
  The post-closing trial balance 190
  Preparing interim statements without closing the accounts 190
  Accrual entries in subsequent periods 191
  Reversing entries 193
  Accounting procedures applicable to a partnership or a company 197
    Accounting for a partnership 197
    Accounting for a company 197
  Demonstration problem 200
Glossary 203
Discussion questions 203
Exercises 204
Problems 209
Additional problems 216
Case for chapter 4 223

5. Accounting for merchandising operations 224
  Introduction 225
  Merchandise inventory 225
  Merchandising firm operations 226
  Profit and loss statement for a merchandising firm 226
  Accounting for sales transactions 227
    Sales returns and allowances 227
Cash (settlement) discounts 228
Trade discounts 229
Freight outwards 230
Accounting for inventory and cost of goods sold 230
Perpetual inventory system 230
Illustration of a perpetual inventory system 231
Periodic inventory system 236
Illustration of a periodic inventory system 236
Perpetual and periodic inventory systems contrasted 239
End of period process 241
Illustration of worksheets for a merchandising firm 241
Perpetual inventory system 244
Periodic inventory system 244
Profit and loss statement of a merchandising firm 245
Trading statement and profit and loss statement 247
Net price method of recording purchases and sales 247
Glossary 249
Discussion questions 250
Exercises 251
Problems 255
Additional problems 258
Case for chapter 5 263

PART TWO: ACCOUNTING SYSTEMS AND CONTROLS 265

6. Accounting systems 267
   Introduction 268
   Operation of an accounting system 269
   Internal control 270
   Development of an accounting system 270
      Systems analysis 270
      Systems design 271
      Systems implementation and review 271
      Evolution of accounting systems 272
   Manual accounting systems 273
      Control accounts and subsidiary ledgers 273
      Special journals 275
   Sales journal 276
      Advantages of a sales journal 276
      Summary of sales journal procedures 278
   Purchases journal 278
   Cash receipts journal 281
      Summary of posting procedures for cash receipts journal 283
   Cash payments journal 284
      Summary of posting procedures for cash payments journal 287
Use of the general journal 288
Abnormal balances in subsidiary ledgers 289
Account set-offs 290
Demonstration problem 291
Refinements of an accounting system 298
Data processing equipment 299
Electronic data processing 300
What is a computer? 300
How does a computer work? 301
Computerised accounting systems 301
Manual vs. computerised systems — accounts receivable 301
Integrated accounting packages 303
Advantages and disadvantages 305
Spreadsheets 307
Glossary 307
Discussion questions 308
Exercises 309
Problems 312
Additional problems 318
Case for chapter 6 325

7. Cash and cash controls 327
Introduction 328
General internal control concepts 329
Administrative controls and accounting controls 329
Clearly established lines of responsibility 329
Separation of record-keeping and custodianship 330
Division of responsibility for related transactions 330
Mechanical and electronic devices 330
Adequate insurance 331
Internal auditing 331
Physical controls 331
Other controls 331
Limitations of internal control systems 331
Control of cash 332
Control of cash receipts 332
Control of cash payments 334
The petty cash fund 335
Bank current accounts 338
The bank statement 340
Bank reconciliation 341
Cash budgeting 348
Need for cash budgeting 348
Preparation of a cash budget 349
The voucher system 350
Placing orders 351
Receipt of goods 353
8. Accounting for receivables and payables 385

Introduction 386
Receivables 386
  Classification of receivables 387
Accounts receivable (trade debtors) 388
  Bad debts 389
  Provision method of accounting for bad debts 389
  Estimating bad debts expense 390
  Writing off a debt that proves to be bad 393
  Recovery of an account written off 395
  Direct write-off method 395
Credit card sales 396
Bills receivable 397
  Determining due date 401
  Calculating interest on bills and notes 401
  Accounting for receipt and collection of bills receivable 402
  Dishonoured bills receivable 403
  Discounting bills receivable 404
  Dishonour of a discounted bill receivable 406
Payables 407
  Classification of payables 407
  Accounts payable 408
  Bills payable 408
  End-of-period adjustments for interest expense 410
  Other current liabilities 411
Glossary 412
Discussion questions 413
Exercises 414
Problems 416
Additional problems 422
Case for chapter 8 426
9. Accounting for inventories 427
   Introduction 428
   Determining inventory on hand 428
      Transfer of ownership 429
      Goods on consignment 430
   Determining cost of inventory 430
   Assignment of cost to ending inventory and cost of goods sold 431
      Periodic inventory system 432
   Comparison of costing methods 436
      Specific identification 437
      First-in, first-out (FIFO) 437
      Last-in, first-out (LIFO) 438
      Weighted average 438
      Which method to select? 438
   Consistency in using a costing method 439
   The lower of cost or market rule 439
   Perpetual inventory system 441
      Cost flow methods with perpetual system 441
   Comparison of inventory systems 445
   Inventory errors 447
   Estimating inventories 449
      Retail inventory method 449
      Gross profit method 451
   Presentation in financial statements 453
   Glossary 453
   Discussion questions 455
   Exercises 455
   Problems 459
   Additional problems 465
   Case for chapter 9 469
   Appendix: Statement of Accounting Standard AAS 2, “Valuation and Presentation of Inventories in the Context of the Historical Cost System” 470

10. Property, plant and equipment: Acquisition and depreciation 474
   Introduction 475
   Determining the cost of property, plant and equipment 475
   Apportioning the cost of a lump-sum acquisition 477
   Exchanging a bill for property, plant and equipment 478
   The nature of depreciation 478
      Determining the amount of depreciation 479
      Comparison of depreciation methods 485
      Depreciation for income tax purposes 487
      Revision of depreciation rates 487
   Reporting depreciation in financial statements 488
      Accumulated depreciation does not represent cash 488
   Capital and revenue expenditures 489
