MANAGERIAL ACCOUNTING

LANE K. ANDERSON
PhD, CPA, CMA
Ernst & Young Professor of Accounting
Texas Tech University

HAROLD M. SOLLENBERGER
DBA, CPA
Professor of Accounting
Michigan State University

COLLEGE DIVISION South-Western Publishing Co.
Cincinnati  Ohio
Part One

MANAGERIAL ACCOUNTING FRAMEWORK

Chapter One  ♦  Managerial Accounting and Management’s Need for Information

Why Managers Need Accounting Information  3 • Planning and Decision Making 4 • Performance Evaluation and Control 5 • Cost Management 5 • Cost Determination 6 • Levels of Management 7 • A Changing Business Environment 7 • Competitive Situation 7 • Technical Evolution 8 • Management Complexity 9 • The Objective of Management 9 • The Accounting System as a Provider of Information 10 • Financial Accounting 10 • Managerial Accounting 13 • Differences between Managerial and Financial Accounting 13 • Organization of the Firm 14 • Role of the Management Accountant 17 • Management Accountant 17 • Certified Management Accountant 18 • Standards of Ethical Conduct 18

Chapter Two  ♦  Cost Concepts

Nature of Cost 25 • Costs, Expenses, and Income Measurement 26 • Cash Versus Accrual Accounting 26 • Comparing Service, Merchandising and Manufacturing Organizations 26 • Traditional Grouping of Product Costs—Manufacturing 31 • Manufacturing Flows of Costs 33 • Cost Behavior 35 • Variable Costs 36 • Fixed Costs 36 • Nature of Variable and Fixed Costs 38 • Relevant Range 39 • Semivariable and Semifixed Costs 39 • Cost Concepts for Planning, Acting, and Controlling 41 • Direct Costs Versus Indirect Costs 41 • Incremental Costs Versus Average Costs 42 • Relevant Costs Versus Irrelevant Costs 43 • Differential Cost, Indifference Points, and Opportunity Cost 45 • Controllable Costs Versus Noncontrollable Costs 45 • Planned Costs Versus Actual Costs 47

Chapter Three  ♦  Activity-Based Costing for Product Costing and Responsibility Accounting

Activity-Based Costing 77 • Issues Influencing Cost Management Systems Design 78 • Definition of Activity-Based Costing 79 • Flow of Costs Under Activity-Based Costing 81 • Influence of Product Mix Complexity 86 • A Comprehensive Activity-Based Costing Example 87
Chapter Four  ❖ Cost-Volume-Profit Relationships  

Cost-Volume-Profit Analysis  136  • A Desired Profit Before Tax  137  • A Desired Profit After Tax  137  • Desired Profit as an Amount Per Unit or Percentage of Sales  138  • The Break-Even Chart  138  • Curvature of Revenue and Cost Lines  139  • The Profit-Volume Graph  140  • Sales Volume  141  • Variable Costs  142  • Price Policy  144  • Fixed Costs  147  • Current Emphasis on Fixed Costs  148  • Measures of Relationship Between Operating Levels and Break-Even Points  148  • Operating Leverage  149  • Margin of Safety  152  • Relationship Between Operating Leverage and Margin of Safety  154  • The Sales Mix  154  • Indifference Point  157  • Other Contribution Margin Measurements  158  • Contribution Margin Per Unit of Scarce Resource  159  • Controllable and Segment Contribution Margins  159  • Illustration of All Contribution Margin Concepts  160

Part Two

PRODUCT COST FRAMEWORK

Chapter 5  ❖ Introduction to Product Costing  

Product Cost Systems  189  • Production Environment for Job Cost  190  • Production Environment for Process Cost  191  • The Job Cost System  192  • Costing of Direct Materials  193  • Costing of Direct Labor  194  • Costing of Direct Materials and Labor and Cost Control  195  • Simplified Approach to Costing Factory Overhead  196  • Computing the Overhead Rate  197  • Costing Variable Overhead  199  • Costing Fixed Overhead  200  • Disposition of the Overhead Variance  201  • Multiple Overhead Rates  202  • Departmental Versus Plant-Wide Overhead Rates  203  • Activity-Based Costing  204  • The Concept of Capacity  205  • Cost of Providing Services  207  • A Job Cost Illustration  207  • Appendix: Service Centers and Support Functions  214  • Select a Cost Driver  214  • Interdepartmental Support  215  • Other Issues  218
Chapter Six  ➤  Process Cost Accounting

Part Three

PLANNING AND CONTROL FRAMEWORK

Chapter Seven  ➤  Budgeting for Operations

Budgeting: Implementing Planning and Control 304  ➤  The Relationship Between Planning and Budgeting 304  ➤  A Planning and Control System 305  ➤  Purposes of Budgeting 307  ➤  Budget Preparation 311  ➤  Master Budget—An Overview 312  ➤  Master Budget for a Manufacturer 312  ➤  Master Budget for a Nonmanufacturing Company 317  ➤  The Starting Point 318  ➤  Finding the Controlling Constraint 319  ➤  Sales Forecasting 319  ➤  Formatting Budget Schedules 321  ➤  Independent and Dependent Variables 324  ➤  Other Approaches to Budgeting 324  ➤  Project Budgets 324  ➤  Zero-Based Budgeting 326  ➤  Program Budgeting 327  ➤  Probabilistic Budgeting 327  ➤  Behavioral Side of Budgeting 329  ➤  Top Management Support 329  ➤  Manager Expectations: Realism and Credibility 330  ➤  Budgetary Slack 330  ➤  Institutionalizing Budgeting 331  ➤  Human Factors and Budget Stress 331  ➤  Budgets Are Only One Aspect of Planning and Control 331

Chapter Eight  ➤  Master Budgeting Example and Financial Modeling

A Master Operating Budgeting Example 354  ➤  Annual Goals and Planning Assumptions 354  ➤  Sales Forecast and Budget 357
