PREFACE
LISTS

The Notes: A Visual Companion for Students

to accompany

Psychology

Sixth Edition

GIFT OF
THE ASIA FOUNDATION
NOT FOR RE-SALE

John W. Santrock
University of Texas, Dallas

Boston New Bridge, N. Chhagan, 16 Madison, WI New York San Francisco St. Louis
Bangkok Beijing Chennai London London Madrid
Mumbai City Milan New Delhi Seoul Singapore Sydney Taipei Toronto

Table of Contents

Chapter 1 What is Psychology? 2

1. Psychology's Beginnings
2. Psychology and Life: What Matters
3. Why Does the Science of Psychology Ope You as the Oldest of Sciences?
4. Settings in Which Psychologists Work
5. What Is Psychology?

Chapter 2 Psychology's Scientific Methods 4

6. The Scientific Method
7. Research Methods
8. Possible Explanations of Correlational Data
9. An Experimental Research Study
10. Research Challenges

Chapter 3 Biological Foundations and Neuroscience 12

11. Psychology's Scientific Methods
12. The Nervous System
13. Autonomic Nervous System
14. The Senses
15. Movement of Ions and Potassium
16. Action Potential
17. How Synapses and Neurotransmitters Work
18. Embryological Development
19. The Reflex Arc Formation
20. The Limbic System
21. The Brain's Four Lobes
22. Disproportionate Representation
23. Broca's Area and Wernicke's Area
24. Visual Information
25. The Major Endocrine Glands
26. Biological Foundations and Neuroscience

Chapter 4 Sensation and Perception 28

27. Measuring Absolute Threshold
28. The Visual System
29. The Electromagnetic Spectrum
30. Major Structures of the Eye
31. Direction of Light in the Retina
32. Negative Afterimage
33. Color Wheel
34. The Auditory System and Other Senses
35. Frequency and Amplitude Sound Waves
36. Major Structures of the Human Ear
37. Reversible Figure-Ground Patterns
38. Gestalt Principles
39. Shape Constancy
40. Müller-Lyer Illusion
41. The Horizontal-Vertical Illusion
42. Ponzo Illusion
43. Devil's Tuning Fork
44. Information Processing
45. Sensation and Perception

Chapter 5 State of Consciousness 46

46. The Changing Rhythms of Sleep
47. Sleep Across the Human Life Span
48. Psychoactive Drugs
49. States of Consciousness
50. Classical Conditioning

Chapter 6 Learning 52

51. The Strength of Classically Conditioned Response
52. Operant Conditioning
53. Associative Learning

- 34. Positive and Negative Reinforcement
- 35. Skinner Pigeon Guided Missile
- 36. Schedules of Reinforcement
- 37. Stimulus Generalization
- 38. Punishment
- 39. Positive Reinforcement
- 40. Bandura's Model
- 41. Learning

Chapter 7 Memory 42

- 42. Processing Information in Memory
- 43. Depth of Processing
- 44. The Power of Organization
- 45. Three Memory Stores
- 46. Atkinson and Shiffrin's Theory of Memory
- 47. Sperry's Sensory of Memory Experiment
- 48. A Theory of Working Memory
- 49. Classification of Long Term Memory's Content
- 50. The Hierarchical Organization of Memory with Nodes
- 51. Revision of the Hierarchical Network View
- 52. Some Important Brain Structures Involved in Memory
- 53. The Serial Position Effect
- 54. Proactive and Retroactive Interference

Chapter 8 Thinking and Language 76

- 55. Computers and Human Cognition
- 56. When is a Cat a "Cat"?
- 57. Maier's String Problem
- 58. Use of Analogy in Problem Solving
- 59. Thinking and Language

Chapter 9 Intelligence 89

- 60. Links Between Reliability and Validity
- 61. The Normal Curve

- 85. The Structure of IQ Scores
- 86. Intelligence

Chapter 10 Human Development 84

- 85. Changes in Development
- 86. Developmental Accomplishments
- 87. Three Mainstays Task
- 88. Classification Involving Family Time
- 89. Pubertal Growth Spurt
- 90. Human Development

Chapter 11 Motivation and Emotion 90

- 91. Cannon and Washburn's Classic Hunger Experiment
- 92. The Hypothalamus and Hunger
- 93. Changes in Basal Metabolism
- 94. Male and Female Sexual Response Patterns
- 95. Arousal and Performance
- 96. Important Structures in the Brain's Emotion
- 97. Pavlov's Classification of Emotions
- 98. Motivation and Emotion

Chapter 12 Personality 98

- 99. The Conscious and Unconscious Mind
- 100. Eysenck's Dimensions of Personality
- 101. Personality

Chapter 13 Abnormal Psychology 102

- 102. Glucose Anesthesia
- 103. Lifetime Risk of Developing Schizophrenia
- 104. Abnormal Psychology

Chapter 14 Therapy 104

- 105. Classical Conditioning
- 106. A - B - C - D - E - F - G - H - I - J - K - L - M - N - O - P - Q - R - S - T - U - V - W - X - Y - Z

Chapter 15 Health Psychology 106

107. Examples

108. Factors Involved in Stress

109. Selye's General Adaptation Syndrome

110. Two Biological Pathways to Stress

111. Health Psychology

Chapter 16 Social Psychology 112

112. Changing Freshman Life Goals

113. Sternberg's Triangle of Love

114. Social Psychology
