CONTENTS

A Review of the Sounds in English	9
---	---

SECTION I

Part I. BIOLOGY

Unit	1. Introduction to Biology	21
	2. Importance of Biology	23
	3. Living Matter	25
	4. Important Life Functions	28
	5. Life Functions (continued)	31
	6. Classification	33
	7. Parasitism	36
	8. Musca Domestica — the Common Housefly	39
	9. Mosquitoes	43
	10. Rats and Fleas — Disease Carriers	49
	11. Insects (and Some other Parasites) of Medical Importance and how to control them	54
	12. Heredity and Genetics	60
	13. Inheritance and Genetics	63
	14. Biology and Everyday Life	66
	15. Sanitation	69
	16. Dust	72
	17. Ventilation	78
	18. Water Supply	84
	19. Sewage Disposal	89
	20. Man and his Environment	92

Part II. ANATOMY (with an introduction to Histology)

21. The Cell		96
22. Tissues		104
23. The Human Body		110
24. The Circulatory System		118
25. The Respiratory System		127
26. The Digestive System		133
27. The Nervous System		141
28. Conditioned Reflexes		148
29. The Special Sense Organs		154

Part III. PHYSICS

30. Historical Considerations	163
31. Modern Physics (1890 to the Present)	166
32. The Most Important Optical Instrument (The Human Eye)	169
33. Practical Applications of Physics	173

Part IV. CHEMISTRY

34. Organic Compounds (Carbon)	176
35. Nitrogen	182
36. Benzene and Other Aromatic Hydrocarbons	185
37. Isotopes in Biology and Medicine	189
38. Chemical Air Contamination (Traffic Odours).	199

Part V. METABOLISM

39. Nutrition	202
40. Enzymes	207
41. Hormones	216
42. Minerals	220
43. Vitamins	226

Part VI. MISCELLANEOUS TOPICS

44. Hands as Principal Disease Carriers	233
45. Unhygienic Habits	236
46. Disinfection and Disinfectants	241
47. Food and Disease Germs in Food	245
48. Food Poisoning and Infection	250
49. Culture Media	254
50. Immunization and Vaccination	261
51. Prevention of Communicable Diseases	266
52. Psychological Reactions to Illness	272
53. Introduction to Psychology for Medical Students	273
54. Notes on Famous Scientists of the XIX-th Century	275

SECTION II

55. Influenza	285
56. Appendicitis	289
57. Diphtheria	295
58. Poliomyelitis (Heine-Medin's Disease)	299
59. Pneumonia	305
60. Bronchial Asthma	311
61. Rheumatic Heart Disease	315
62. Angina Pectoris	320
63. Peptic Ulcer	324
64. Cholelithiasis	331

65. Pyelitis	335
66. Diabetes Mellitus	339
67. Pernicious Anaemia	343
68. Exophthalmic Goitre (Basedow's Disease)	348
69. Rheumatic Fever	352
70. Infantile Eczema	357
71. Congenital Syphilis	362
72. Trachoma	367
73. Sympathetic Ophthalmia	372
74. Acute Tonsillitis	376
75. Otitis Media (Acute Suppurative)	380
76. Rachitis (Rickets)	385
77. Diarrhoea	390
78. Meningitis (Cerebrospinalis Epidemica)	397
79. Chorea (Rheumatic Chorea, Sydenham's Chorea, St. Vitus's Dance)	403
80. Dental Caries	409
81. Oral Effects of Radiation (and Features of Importance in Dentistry)	416
82. Radiant Energy in Ophthalmology	418
83. Radiiodine in the Diagnosis of Thyroid Disease	420
84. The Sulphonamides	422
85. Antibiotics	428
86. Antipyretics	436
87. Anthelmintics	443
88. The Tuberculin Tests	452

APPENDIX

I. Revision of Grammar	460
II. Irregular Verbs	528
III. Greek and Latin Singulars and Plurals Used in English	532
IV. Prefixes and Suffixes used in Medical Terms	535
V. Prefixes and Suffixes in Chemical Terms.	544
VI. Weights and Measures	545
VII. Rules for Comparing Thermometric Scales	547
VIII. Remarks on Prescription	548
IX. Latin Words and Abbreviations.	549
X. The Greek Alphabet	554
XI. Abbreviations of Medical Diplomas	555
XII. General Expressions	558

THE ENGLISH-POLISH VOCABULARY	565
