

On the competition problems of IPhO 39 in Vietnam

Khoi N.T., Tu P.Q., Don D.T.

Hanoi National University of Education, Viet Nam; Hanoi University of Natural Sciences, Viet Nam

Abstract: We report on the competition problems given at the 39th International Physics Olympiad held in Hanoi, Vietnam, which consist of three theoretical and one experimental problems. The abbreviated solutions are presented. The distribution of marks for the problems is also shown. ?? 2009 IOP Publishing Ltd.
