The Authors and Publisher believe that the lab experiments described in this publication, when conducted in conformity with the safety precautions described herein and according to the school's laboratory safety procedures, are reasonably safe for the student to whom this manual is directed. Nonetheless, many of the described experiments are accompanied by some degree of risk, including human error, the failure or misuses of laboratory or electrical equipment, mismeasurement, chemical spills, and exposure to sharp objects, heat, bodily fluids, blood, or other biologies. The Authors and Publishers disclaim any liability arising from such risks in connection with any of the experiments contained in the manual. If students have any questions or problems with materials, procedures, or instructions on any experiment, they should always ask the instructor for help before proceeding.
